Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant's proposed amendment to the specification to overcome final rejection under 35 USC 112, first paragraph, was discussed. The likely outcome of an amendment to the specification adding that the number of addresses is multiplied by the number of kilobytes per address before being divided by the bit rate filed with an RCE was discussed. The interview concluded with Applicant intending to submit an after-final amendment to amend the specification as discussed without filing an RCE despite Examiner's contention that such an amendment would require further consideration.
